DEAN’S REMARKS

Welcome to all for the academic year 2009-2010.

You are joining us as we complete the first decade of the 21st century and the 61st year of the UWI. This has been a difficult economic year globally but rest assured this university has faced rough weather before, and navigated to safe and sure waters. The experiences have made us a solid institution ready to offer its wares to any on this globe. The range of experiences you are exposed to here at Cave Hill in difficult or calm times should similarly build you into a solid Caribbean person and this is our objective as the primary university of our Caribbean region.

For new members of our faculty we wish you to appreciate that even though you join this faculty, on this campus, you have also joined a great West Indian institution, the University of the West Indies. Great things we have done and great things we are doing. You can be a part of the great things UWI will do. You are now a part of a grand community made up of the past, the present and the future UWI. Do your best enthusiastically and make the Faculty of Social Sciences at Cave Hill proud of you.

This message is part of an important document our faculty provides to all of its students. This pamphlet outlines faculty regulations, programmes and lists faculty staff. It should be your constant companion and reference. We wish it to be used to facilitate and enhance your experience here with us. Always remember, however, that faculty staff are here to help you on your way as well, should you need personal guidance. Further, be confident to seek out your Head of Department and the Dean’s Office for assistance. I am always available to address your issues.

Let us have a good year and let us add new and greater accomplishments to the University.

George A.V. Belle, PhD
Dean, Faculty of Social Sciences

GENERAL REGULATIONS FOR THE DEGREE OF BACHELOR OF SCIENCES IN THE FACULTY OF SOCIAL SCIENCES

Definition of Terms

i. “Faculty Handbook” means, in the case of the St. Augustine Campus, The Students’ Guide to the Faculty of Social Sciences, and in the case of the other Campuses means The Handbook of the Faculty of Social Sciences;

ii. “Free electives” means courses listed in the Faculty Handbook which are optional in the degree programme concerned;

iii. “Level I”, in relation to a Faculty other than a Faculty of Social Sciences, means the stage of a degree programme at the end of which a candidate who has completed all the examinations is eligible, under the scheduling of the programme in that Faculty, to complete that programme within two years without registering for summer school sessions;

iv. “Pre-requisite” means a course listed in the Faculty Handbook as a course which must be completed before permission is given to register for another course for which it is so listed as a pre-requisite;

v. “Summer school sessions” refer to the sessions of the summer schools as governed by the Summer School Regulations.

QUALIFICATIONS FOR ADMISSION

1.1 Before registration and before beginning courses in the Faculty the candidate must have satisfied the University Matriculation requirements for entry to a degree programme (See University Matriculation requirements - UWI Calendar Vol II Part II).

1.2 On entry to the University students may be required by Faculty Board to take an English Proficiency Test. Students failing this test may be required by Faculty Board to do a prescribed course in English as a prerequisite to the compulsory Foundation Course, FOUN 1001 English for Academic Purposes, or FOUN 1008 Rhetoric II: Writing for Special Purposes.
1.3 Applicants for entry into Economics, Accounting, Management Studies; Psychology and Statistics (Mona) degree options (specialization and majors) are required to have a minimum of a Grade II pass in CXC (General) Mathematics or a qualification deemed by Faculty Board to be equivalent.

TRANSFERS

Inter and Intra Faculty Transfers

2.1 Students in another Faculty who have completed Level One of a degree programme of the University of the West Indies are eligible for transfer to the Level II of a degree programme offered by a Faculty of Social Sciences. Such students must, at the time of transfer, have passed courses which satisfy the Level One requirements of the Faculty of Social Sciences as well as the pre-requisites of the relevant courses of the programme into which the transfer is sought. Transfers are offered to students who have acquired a strong level one record. (B+ average and above)

2.2 Transfer may also be offered to any student registered in any other Faculty of the University of the West Indies and who has successfully completed the Level One prerequisites to Levels II & III courses in the area of intended major or special and has also completed the required Foundation Course(s).

2.3 For transfer to the Level II of a degree programme offered by the Faculty of Social Sciences (Mona), students registered prior to 1998-99 may include among the courses passed Essentials in English (UC010, UC001) or Use of English (UC120).

COURSE OF STUDY

3. Candidates for any of the degree programmes must pursue a course of study comprising at least 90 credits at least 30 credits at Level One and at least 60 credits at Levels II and III. The Faculty Board may require that the timing of registration in particular courses may be such as to ensure that the course of study extends over either at least five (5) semesters and two (2) summer school sessions or six (6) semesters.

LEVEL ONE REQUIREMENTS

4.1 Students must satisfy the requirements for a minimum of 30 credits at Level One comprising:

such Foundation courses as are required and offered; other compulsory courses in the chosen degree option as specified in the Faculty Handbook; free electives to bring the total credits to 30.

UNIVERSITY FOUNDATION COURSES

4.2 As of 1998-99 all students registered in the University of the West Indies will be required to complete a minimum of 9 credits of Foundation Courses including MGMT 1000 Introduction to Computers.

Foundation Courses are University Courses and not Level One Courses. They may be completed at any stage in a student’s programme. Students are advised to complete foundation course requirements prior to proceeding to the final semester of their programme.

(a) Students awarded Advanced Standing, as well as those in the BSc Hospitality and Tourism Management programme, are required to complete 9 credits of Foundation courses including MGMT 1000 Introduction to Computers. The Foundation courses comprise:

i) FOUN 1008 Rhetoric II; Writing for Special Purposes

(ii) FOUN 1210 Science, Medicine and Technology in Society

(iii) FOUN 1101 Caribbean Civilization

(iv) FOUN 1301 Law, Governance, Economy and Society
(v) any other course approved for the purpose by the Board of Undergraduate Studies

(b) Students registered in the Faculty of Social Sciences will be required to include among such Foundation Courses, FOUN 1008 Rhetoric II: Writing for Special Purposes.

(c) The elective Foundation course, FOUN 1301 Law, Governance, Economy and Society, will not count for credit in the programme of the Faculty of Social Sciences except with the permission of the Dean.

(d) Exemption in whole or in part from the requirements under [4.2(a-b)] may be granted from time to time by the Board for Undergraduate Studies.

REQUIREMENTS FOR ENTRY TO LEVELS II AND III

5. Students are required to satisfy pre-requisites for Levels II and III courses. A minimum of twenty-four credits at Level One including eight core courses is required to progress to Level II.

REQUIREMENTS FOR THE AWARD OF THE DEGREE

6.1 In order to qualify for the award of a degree a student must:

• Have completed a minimum of 90 credits (normally equivalent to 30 semester courses) of which:

• At least thirty credits are from Level One semester courses (including the Foundation Course requirement), and at least sixty credits from Levels II and III semester courses

• Students registering for more than twenty Level II/III courses must indicate which of the additional courses are “not for credit”. Students will not be permitted to register for “not for credit” courses after satisfying the requirements for the award of the degree.

• Have satisfied the requirements for their specific degree programmes.

6.2 Degrees are offered in the following categories:

• Special
• Major
• Three minors (restricted to BSc Social Sciences)

A student must be formally registered in one of these programme options:

A special comprises a minimum of forty-five (45) credits in the subject area over Levels II and III.

A major comprises a minimum of thirty (30) credits in the subject area over Levels II and III.

A double major comprises a minimum of thirty (30) credits each in two (2) subject areas over Levels II and III.

A minor comprises a minimum of fifteen (15) credits in the subject area over Levels II and III. A major/minor comprises a minimum of thirty (30) Levels II and III credits in the subject area of the major and fifteen (15) Levels II and III credits in

[Key:  + Cave Hill  * Mona  # St. Augustine  )a Bahamas]

(a) The degree majors with which the above minors may be combined will be approved by Faculty Board and Board for Studies (major) BSc Accounting (major) and the BSc. International Relations (major). Part-time registration is not permitted at Levels II and III at the St. Augustine Campus.

(b) The Faculty Board may require that the timing of registration in particular courses be such as to ensure that the course of study for the Level One programme extends over at least three (3) semesters inclusive of one (1) summer school session.

Students may also request to combine a Social Sciences major with a minor offered by another Faculty. To do this, the permission of the Deans of both Faculties must be sought and obtained. At St. Augustine students may register in the Faculty for a double major comprising a major in the Faculty and a major offered by another Faculty. By special arrangement with the Faculty of Pure & Applied Sciences (Cave Hill), students may register for a double major comprising any of the majors offered in the Faculty of Social Sciences as one of the two required subject areas and Mathematics in the Faculty of Pure and Applied Sciences (Cave Hill) as the other. Students may also apply to register in the Faculty of Social Sciences for a double major involving any of the Faculty of Social Sciences majors and any other majors offered in another Faculty at the Cave Hill Campus. To do this, the permission of the Deans of both Faculties must be sought and obtained.
6.3.6 A student may with the permission of the Dean change any major, special or minor for which that student is registered.

REGULATIONS FOR FULL-TIME PROGRAMME

7. A full-time student:

(a) Shall complete the degree programme in not more than eleven (11) semesters and five (5) summer school sessions;

(b) Will unless Academic Board approves otherwise on the recommendation of Faculty Board be required to register for ten (10) semester courses in any one year and five (5) semester courses in any one semester, provided that permission may be sought for not more than one additional course for the year by any student who needs that one course for completion of the requirements for the degree or who has been awarded a grade of A as the examination mark for more than half of the courses for which that student has been examined when registered in the Faculty.

(c) Will be required to withdraw from the Faculty unless he/she has gained at least:

- fifteen (15) credits at the end of the second semester
- thirty-three (33) credits at the end of the fourth semester
- fifty-one (51) credits at the end of the sixth semester
- sixty-nine (69) credits at the end of the eighth semester

N.B. Credits gained from courses done in another programme will not be counted towards the rate of progress.

REGULATIONS FOR PART-TIME PROGRAMME

8.

(a) A part-time programme is offered for Level One of the BSc degree at all campuses. Level II and III are available in all programmes offered at the Cave Hill Campus. At the Mona Campus part-time is offered in BSc. Management Studies (major) BSc. Accounting (major) and the BSc. International Relations (major). Part-time registration is not permitted at Levels II and III at the St. Augustine Campus.

(b) The Faculty Board may require that the timing of registration in particular courses be such as to ensure that the course of study for the Level One programme extends over at least three (3) semesters inclusive of one (1) summer school session.

(c) A part-time student will be required to withdraw from the Faculty unless he/she has gained:

- six (6) credits at the end of the second semester
- eighteen (18) credits at the end of the fourth semester
- twenty-four (24) credits at the end of the sixth semester
- thirty-nine (39) credits at the end of the eighth semester
- fifty-four (54) credits at the end of the tenth semester
- seventy-two (72) credits at the end of twelfth semester
- ninety (90) credits at the end of the fourteenth semester

(d) Once a Part-time student transfers into the Full-time programme, he/she is required to maintain the rate of progress mandated for the Full-time programme.

N.B. Credits gained from courses done in another programme will not be counted towards the rate of progress.
REGULATIONS FOR GPA STUDENTS

9.
(a) Except where otherwise prescribed in Faculty Regulations, a student whose GPA for a given semester is less than or equal to 0.75 shall be deemed to be performing unsatisfactorily, and shall be placed on warning. A student on warning whose GPA for the succeeding semester is less than 0.75, will be required to withdraw.

(b) A student on warning shall be counselled by the Dean or a designated faculty advisor. Such a student may, except where otherwise prescribed in Faculty Regulations, be permitted by the Academic Board on the recommendation of Faculty Board to carry a reduced course load.

REGISTRATION/EXAMINATIONS

10.
(a) Students will be examined during each semester and the summer session in the courses for which they are registered.

(b) A course may be examined by one or more of the following methods:

(i) written examination papers

(ii) oral (under the conditions in Regulation 11 below)

(iii) practical examinations

(iv) coursework (which may include written in-course tests, practical work, dissertations, essays, projects, studies and other forms of coursework exercise as approved by the Faculty Board, or the Campus Committee on Examinations as appropriate).

(c) A student failing a course may subject to the rate of progress requirements of these Regulations be allowed to substitute another approved course in a subsequent semester or repeat the failed course.

(d) All optional courses (electives) listed in the various degree programmes in the Faculty Handbook will not necessarily be available in any one year.

(e) Deadlines for changes of registration including withdrawal from or addition of courses will be as prescribed in University Regulations.

(f) Registration for a course constitutes registration for the examination in that course.

(g) A student who does not take an examination in a course for which he/she is registered is deemed to have failed that examination unless permission to be absent has been granted.

(h) A student who, on grounds of illness or in other special circumstances as referred to in Examination Regulation 25 fails to take an examination in a course for which he/she is registered, may be given special consideration by the Board of Examiners to take examination at the next available opportunity, without penalty.

(i) Students are asked to pay special attention to Examination Regulation 23 which states:

"Any candidate who has been absent from the University for a prolonged period during the year for any reason other than illness or whose attendance at prescribed lecturers, classes, practical classes, tutorial or clinical instructions has been unsatisfactory or who has failed to submit essays or other exercises set by his teachers may be debarred by the relevant Academic Board, on the recommendation of the relevant Faculty Board, from taking any University examinations."
ORAL EXAMINATIONS FOR FINAL YEAR STUDENTS

11.
(a) The Board of Examiners may recommend to the Department concerned that a student who has failed the last one or two courses(s) required to complete the degree be offered an Oral Examination in that one or those two courses provided that he/she has obtained in each instance a mark of at least 35% for the course(s).

If an Oral Examination is granted the student may choose to decline the offer.

(b) The Oral Examination, which will be of maximum length of one hour, will be held as soon as possible after the previous examination. The student must contact the department concerned immediately so that arrangements may be made for the Oral Examination.

(c) The Oral Examination will concern the course as a whole, and not be restricted to the questions set in the examination which the student did. The First Examiner and at least one other must be present at an Oral Examination.

(d) If the examination is passed, the student cannot be awarded a grade higher than 40 - D and this grade will replace that previously gained for the entire evaluation in that course.

(e) If he/she fails the Oral, the student will not have any right of appeal or review.

(f) A student will be allowed only one Oral Examination for any one Course.

COURSEWORK

12.
(a) In the case of examination by coursework a student gaining an overall mark higher than 40% but passing in only one component will be required to repeat at the next available sitting the component that was failed.

(b) A student who is absent from a coursework examination may apply to the Dean of the Faculty for exemption from this examination no later than one (1) week following the date of this examination. He/she must at the same time submit to the Campus Registrar justification for such absence (such as, in case of illness, a medical certificate complying with any applicable Examination Regulations). The Dean shall consider any such request for exemption in consultation with the relevant Head of Department and course lecturer. If the exemption is granted, the candidate’s assessment will be based entirely on the final examination.

(c) A student may request to submit coursework assignments, essays, etc. after the stipulated deadline date on the basis of appropriate justification (such as, in case of illness, a medical certificate complying with any applicable Examination Regulations). This request must be made within 48 hours after the stipulated deadline date and must be addressed to the Dean, who in consultation with the relevant Head of Department and course lecturer may allow the extension. The Dean, acting on advice of the relevant Head of Department and course lecturer, may consider requests for exemption from submission of the coursework assignment, essays, etc. If the exemption is granted, the candidate’s assessment will be based entirely on the final examination.
LEAVE OF ABSENCE

13.  
(a) A candidate who for good reason wishes to be absent from an academic programme for a semester or more must apply for formal leave of absence to the Campus Faculty Board, through the appropriate Dean, stating the reason for the application.

(b) The length of such leave of absence, if granted, will be subject to approval by the Academic Board of the Campus concerned, but will not exceed one academic year in the first instance terminating at the end of the academic year for which the application is approved.

(c) Leave of absence will not be granted for more than two consecutive academic years.

(d) Leave of absence may be granted for one semester or for an academic year.

(e) Applications for leave of absence for a semester shall normally be submitted by the end of the third week of the relevant semester.

(f) Applications for leave of absence for the academic year shall normally be submitted the end of the third week of semester I.

AWARD OF DEGREES

14. Notification of Results

For those candidates who have completed the requirements of the BSc degree a pass list shall be published and arranged alphabetically in the following categories:

- First Class Honours
- Second Class Honours
  - Upper Division
  - Lower Division
- Pass

GRADE POINT AVERAGE SYSTEM

15.  
(a) These regulations shall apply to all students admitted to the University commencing academic year 2003-2004.

(i) The class of degree to be awarded shall be determined on the basis of a weighted Grade Point Average (GPA).

(ii) In the calculation of the weighted GPA a weight of zero shall be attached to all Level I courses.

(iii) Levels II and III courses shall have equal weight in the determination of the weighted GPA.

(iv) Core courses satisfying the requirements of specials, majors and minors must be taken into account in the determination of the weighted GPA.

(v) A course designated at not-for-credit (NFC) shall not count in the determination of the weighted GPA.

(vi) The class of degree shall be awarded as follows:

  First Class Honours -
  Weighted GPA of 3.6 and above
CO-CURRICULAR CREDITS

16.
(a) Students will be eligible for no more than 3 credits for involvement in co-curricular activities. The activities may be Campus specific.

(b) Co-curricular credits will be awarded on the following basis:

(i). Students must be involved in the activity for at least one (1) semester;
(ii). Explicit learning outcomes must be identified for each activity.
(iii) There must be clearly defined mode(s) of assessment for each activity.

(c) The Office of Student Services and the School of Education on each campus will administer the award of credits.

(d) The grading of co-curricular credits will be pass/fail.

(e) All co-curricular activities/programmes must be approved in advance by the Faculty and Academic Board.

(f) Subject to Faculty Regulations, co-curricular credits will form part of the 90 credits for a degree. However, in special circumstances, if credits are earned in excess of those required for the degree, these and the associate
AEGROTAT DEGREE

17. A candidate taking examinations in respect of a final degree, diploma or Certificate programme and who had been absent through illness from one or more papers, may apply for the award of an aegrotat degree, diploma or certificate on the following conditions.

(a) Where the whole of the final examination for a degree, diploma or certificate is taken at the end of the final year of the course and he/she has completed more than half of the examination but has been absent from the remainder of that examination.

(b) Where the final examination is in two or more parts (the award of the degree, diploma or certificate depending on performance in each of these parts) and he/she has successfully completed the first one or two parts or more than half of the final part, but has been absent from the remainder of the examinations for the final part.

(c) Where the final examination is in two parts and the student has completed the first part (level II) with a B average or higher and his course work during the final year of the course has been of a consistently high standard, but he/she has been absent from the other part of the examinations.

(d) The Examiners consider that in the work which the candidate has submitted at such of the final examination as he/she had attended, he/she reached a standard which, if also reached in the remainder of the examination, would have qualified him/her for the award of a degree, diploma or certificate.

18. All applications for an aegrotat degree, diploma or certificate must be referred by the Registrar to the Faculty Board of Examiners and the Board for Examinations for a recommendation to the Board of Undergraduate Studies (BUS). Applications from or on behalf of candidates must be accompanied by a medical certificate signed by (a) University Health Officer, or (b) the Dean of the Faculty of Medicine in consultation with the appropriate members on the Medical School, (c) or other medical personnel appointed for this purpose by the University, and shall reach the Registrar not later than thirty days from the last examination paper written by the candidate.

19. In assessing an application for an aegrotat degree, diploma or certificate, reports from Heads of Department on the candidates work should be taken into consideration. Oral examinations where possible, by internal examiners may be an aspect of examinations for the award of an aegrotat degree.

20. An aegrotat degree, diploma or certificate will be awarded without distinction or class.

21. Holders of an aegrotat degree, diploma or certificate will not be permitted to re-enter for the same examination but may proceed to a higher degree if accepted by the Board for Graduate Studies and Research.

BSc HOTEL MANAGEMENT

BSc TOURISM MANAGEMENT

The Department offers only Level One of the two above programmes. After completing Level I, students go on to the Centre for Hotel and Tourism Management in the Bahamas to complete a BSc Special degree in one of the Hotel Management or Tourism Management Programmes as follows:

BSc HOTEL MANAGEMENT

1. Level I is as for BSc programme on page 78

2. Levels II and III of the programme operate on a semester basis of two semesters per academic year. Each semester's study comprises five (5) half-courses for full-time students and a minimum of two (2) half-courses for part-time students. Normally a student is required to satisfactorily complete eighteen (18) half-courses – nine (9) full courses – within two years and may additionally choose two (2) half-course optional electives, e.g. Foreign Language, Data Processing. The electives do not count towards assessment of the class of degree.

3. Half-courses required to be taken:

   (i)-(iv)  Hotel Operations I-IV
   (v)-(vii) Food and Beverage Management I-IV
   (ix)+(x)  Marketing Management I and II
   (xi)     Hotel Accounting
   (xii)    Management Accounting
   (xiii)   Financial Management
   (xiv)    Organizational Theory & Behaviour
   (xv)     Personnel Management and Industrial Relations
   (xvi)    International Tourism
   (xvii)   Caribbean Tourism
   (xviii)  Hotel Law

4. Students are also required to spend two 12-week segments working under staff supervision within the industry. Detailed regulations concerning these
internship periods are issued to all students enrolling in this programme.

Scheme of Examination

5. (i) Levels II and III examination will consist of a minimum of twenty (20) papers each normally of two hours duration.

   (ii) Students will be examined in each half-course at the end of the semester in which it is taught, i.e. five papers per semester. Optional electives will not necessarily be available.

   (iii) A Level II and III student taking a normal full-time load of five half-courses per semester who fails all such courses in a given semester will normally be required to withdraw from the Faculty.

BSc TOURISM MANAGEMENT

The Level One requirements for the Tourism Management option are the same as that outlined above for the Hotel Management option.

1. Regulations similar to those for the BSc Hotel Management apply - See Regulations 1-4 above.

BSc HOSPITALITY AND TOURISM MANAGEMENT

This Programme is offered jointly with the Barbados Community College (BCC). In the programme, students are required to complete the Two-Year Associate Degree in Applied Arts - Tourism and Travel, or the Associate Degree in Applied Arts - Hotel Catering and Institutional Operations, (or equivalent) with a 2.75 grade point average, before proceeding to complete years 3 and 4 in the Faculty.

The four-year programme consists of a core of Hospitality and Tourism courses, along with Business and Management courses, in two (2) areas of specialisation, viz. Hospitality Management and Tourism Management. The vocational courses, particularly in Hospitality, will be undertaken during the first two years of study at the purpose-built facilities of the Hospitality Division of BCC. In years 3 and 4 a range of Business and Management courses is offered mainly at the Cave Hill campus of the UWI.

The four-year programme is designed to be both academically sound and specifically relevant to the Regional Hospitality and Tourism Industry. The training will provide opportunities for employment in hotels, transportation and tour operation companies, travel agency operations, national and regional tourism organizations and government departments. It will be of benefit to those already in the industry as well as those seeking to enter this diverse field.

Students will receive practical exposure to kitchen, restaurant and general hotel management operations at the Pommarine Training Hotel facility. They will also be given the opportunity to gain experience and a realistic appreciation of the working environment of the industry through an internship scheme. A six (6) week internship is undertaken at the end of Year 2, and a further twelve (12) week industry internship is undertaken at the end of Year 3 of the programme. Language training is built into the degree programme as a requirement during the first two years.
N.B. Students are normally required to complete three (3) Foundation Courses as part of the degree programme. Where equivalent courses have been taken at the Barbados Community College, students may apply for exemption from the relevant Foundation Course. Courses currently under consideration for exemption are:

This course will introduce students to:

• National Income Accounting
• Macroeconomic Model Building and Analysis
• The Theory of Small Open Economy
• Money and Banking
• The International Economy

ECON 1003 – MATHS FOR SOCIAL SCIENCES I

Basic algebraic techniques: Sets; Matrices; Matrix solutions to systems of linear equations; Relations; Functions; Graphs; Coordinate Geometry; Limits; Differentiation; Integration; Maxima and minima curve tracing; Linear programming and the calculus of two variables. The application of the foregoing to the Social Sciences.

This course is not for students with ‘A’ level Mathematics.

ECON 1004 – MATHS FOR SOCIAL SCIENCES II

Prerequisite: A-level Mathematics or ECON 1003

This course would build on the material covered in the introductory course. Topics to be studied would include: Finite Mathematics, including sets, relation, function. Classical Algebra including partial functions, remainder theorem, theory of equations; linear algebra including vector, matrices, linear system of equations, rules, eigen vectors, quadratic forms, advanced calculus, especially all types of optimisations problems; differential and difference equations.

ECON 1005 – INTRODUCTORY STATISTICS

The collection, compilation and tabulation of statistics, and their representation by charts, diagrams, averages, measures of dispersion and association, and index numbers. Elementary aspects of distribution theory, estimation theory; and hypothesis testing. The use of mechanical aids to calculation and tabulation. The analysis of variance technique. Elementary decision making theory.

No prerequisite.

FINA 1001 – ELEMENTS OF BANKING AND FINANCE

The objective of this course is to introduce students to the role of Banking and Finance in an economy, and the unique managerial issues that confront financial institutions. Specific topics to be covered include:

The aim is to acquaint students with the full range of forecasting techniques, describing their essential characteristics and showing how they can be applied in practice.

Basic concepts of forecasting: Need and uses of forecasting, type of forecasting, introduction to some of the terminology.

Trend-line fitting and forecasting. Introducing trends, estimating a curve, forecasting using trend curves.

Time series methods. White noise, moving averages and autoregressive models, exponential smoothing and smoothing methods in general. Decomposition methods, ARMA methods, Box-Jenkins methods.

Regression methods and Econometric models. Simple regression, multiple regression, use of Econometric models in forecasting. Qualitative and subjective forecasting.

Evaluation forecasts. Mean square error and other criteria.

Forecasting and planning in organizations.

ECON 3037 – OPERATIONS RESEARCH I
Prerequisites:
ECON 1003 Maths for Social Sciences I
ECON 1005 Introductory Statistics

- Non-Linear Programming – Constrained and unconstrained models.
- Dynamic Optimization – Calculus of variations and optimal control.
- Dynamic Programming
- Linear Programming
- Special Cases in Linear Programming
- Integer Programming and Combinatorial Models.
**ECON 3038 – OPERATIONS RESEARCH II**

**Prerequisites:**
ECON 1003 Maths for Social Sciences I  
ECON 1005 Introductory Statistics

- Theory of Games  
- Markov Decision processes  
- Inventory Models  
- Waiting Line Models  
- Probabilistic Dynamic Programming Models  
- Simulation  
- Project Scheduling

**ECON 3045 – CARIBBEAN ECONOMIC ANALYSIS**

**Prerequisites:**
ECON 2000 Intermediate Microeconomics I  
ECON 2002 Intermediate Macroeconomics I

**Objective:**
The course attempts to provide the analytical equipment required for studying aspects of the transmission processes in the small open dependent economy. It familiarizes the student with the institutional framework of Caribbean economies and develops a feel for the contemporary policy issues.

**Structure:**
Modelling the small open economy (basic relations)  
Income determination  
Balance of payments and development

FINA 3001 – CARIBBEAN BUSINESS ENVIRONMENT

This course aims to provide students with a thorough understanding of the institutional framework of Caribbean economics and the contemporary issues shaping public policy in the Caribbean. Particular emphasis is placed on how the institutional framework and public policy initiatives impact on organizational decision making, and the response of organizations to public policy to interest group pressures.

Specific topics to be covered include:
- The Development of Caribbean Economies
- The Small Open Economy Model
- Trade and Production Patterns
- Balance of Payments Issues
- Globalization
- The Role and Impact of Trade Unions
- Environmental Impact of Business Decisions
- Corporate Governance

FINA 3005 – BANK FINANCIAL MANAGEMENT

The objective of this course is to examine how modern finance techniques can be applied to the financial management of commercial banks. The wider strategic context of bank financial management is emphasized throughout the course. Banks are viewed as financial service firms operating in the wider financial services industry. Three unifying themes emphasized are: managing risk and return tradeoffs: the need to maximize banking value: and the integration of ‘market thinking’ into financial management. Specific topics to be covered include:

- Banks and the Financial Services Industry
- Regulatory Restrictions and Financial Management
• Performance Analysis and Strategic Planning
• Asset Management – Liquidity, Investment and Loan Management
• Liability and Deposit Management
• Capital Structure and Dividend Decisions
• Financial Management Implications of Electronic Banking, International Banking, and other Developments.

FINA 3008 – ADVANCED PORTFOLIO MANAGEMENT

This course takes a more detailed look at the issues covered in Portfolio Management 1. Particular emphasis is placed on the role of derivatives and financial engineering in portfolio management. An integral part of this course is an interactive computer based investment simulation allowing students to apply their knowledge to building “real” portfolios. Specific topics to covered include:

• Portfolio strategies involving derivatives
• Portfolio risk management using derivatives
• Contemporary issues in portfolio management

FINA 3010 – SUPERVISED RESEARCH PROJECT

GENERAL

1. The Supervised Research Project is equivalent to two (2) Faculty courses and must therefore reach that standard in terms of content and research effort.

2. It is restricted to those majoring in Banking and Finance

PROCEDURE

1. Students must choose a topic for study which is primarily financial in focus and which should broadly fall within a sphere of research specialization of one of the Banking and Finance lectures. They must seek the advice and approval of the lecturer who is willing to act as supervisor of each study. On occasions when the chosen topic spans more than one subject area or discipline, joint supervision with another university lecturer may be recommended.

2. Students should submit a proposal to and consult regularly with their supervisors. It is the students’ responsibility to inform supervisors of progress and general difficulties and to seek specific advice on bibliographical material and research methods (preparation of questionnaires, etc)

PRESENTATION

I. The study should normally be between 5000 to 8000 words in length, excluding bibliography.

II. It should contain some originality in material, argument and conclusion and evidence of extensive reading and comprehension of the subject area. The research should also be explanatory rather than descriptive in nature.

III. Each study must have a little title page, with the student’s name, supervisor(s) name(s) and title of the paper.
DEPARTMENT OF
GOVERNMENT, SOCIOLOGY
AND SOCIAL WORK

LEVEL I

GOVT 1000 – INTRODUCTION TO POLITICAL ANALYSIS

In this course the student will receive an introduction to classical political philosophy. Theories of the state, modern political science methodologies, comparative government, Caribbean political thought, international politics and colonialism and some basic tools in helping you to clarify your political beliefs, in understanding our political environment and in enabling you to analyze events with a greater degree of sophistication, consistency and clarity.

GOVT 1001 – INTRODUCTION TO CARIBBEAN POLITICS

This course intends to build upon the theoretical concepts introduced to students in GT10 A, with a more direct and specific empirical focus on Caribbean political issues. The course will introduce students to a few of the basic concepts in the historical evolution of Caribbean political economy and society, and will seek to familiarise students with contemporary socio-economic and political development issues of relevance to the Caribbean. It is also intended to expose students to the relevant issues involved in understanding the nature of Caribbean political economy, Caribbean Political systems and the wider politics of the Caribbean.

It is hoped that upon completion of this course students should be able to identify, describe, understand and analyse and explain the historical and contemporary forces shaping Caribbean politics. Students should also have a basic knowledge of the workings of Caribbean political systems.

Issues concerning the origins of political thought per se will however be investigated as well, taking note e.g. of the contribution of Ancient Egypt to Greek philosophy. The pre-cursors to modern political thought and evolution of political values and ideologies will be identified. Theories of the state and their social-historical milieu will be investigated and the contribution of political philosophy to the development of political institutions addressed. The philosophy and historical sources of contemporary civil and political rights and their philosophical assumptions will be reviewed and assessed.

This course is designed to provide tools of philosophical analysis for the political scientist.

GOVT 2015 – MODERN POLITICAL THOUGHT

This course will investigate dominant schools of political thought in the 20th century and political theory relevant to assisting interpretation of the politics of development. Modern liberal democratic thought and 20th century Marxist thought; Nazism and Neo-conservatism; Anti-colonial thought and Nationalism; and West Indian political thought will be reviewed and assessed.

This course will also provide exposure to critical methodologies used in contemporary political science.

GOVT 2016 – CARIBBEAN POLITICAL PHILOSOPHY

With a Caribbean-centred approach, the course aims to give the student an introductory understanding of Caribbean Political Philosophy and the wider intellectual context in which this branch of the Caribbean intellectual tradition has grown and currently operates. The course will analyse the nature of Caribbean Political Philosophy within the socio-historical, cultural and ideological contexts of how it emerged – slavery, colonisation and creolisation. Specific attention will be paid to the three branches of Caribbean Political Philosophy: namely Historicism, Poeticism and Africanism. From the Historicist school the course will examine the works and ideas of C.L.R. James, Jose Marti and Frantz Fanon. From the Poeticists, the works and ideas of Wilson Harris, Sylvia Wynter, Kamau Brathwaite and Aime Cesaire will be looked at; and from the Africanists, Marcus Garvey; and the Philosophies of Rastafari will be discussed.

GOVT 2021 – SOCIALIST POLITICAL ECONOMY

It will address the politics of socialist states, and non-capitalist political development options. The course will therefore speak to the relationship between efforts at socio-economic transformation and the politics of state origin, consolidation and development in non-capitalist politics. The role and character of state institutions in these processes will be state institutions in these processes will be addressed and special attention will be paid to the function of ideology in non-capitalist, anti-systemic politics. The inter-relationship and interaction of anti-systemic politics with international develop systemic state structures will be explored. It will address issues of institutional political forms in the region, from the 16th Century to the 21st Century, emphasising the critical issues shaping the development of the Westminster model in the region. It will expose students to the theoretical debate on political institutions and to the Continuing discourse on the appropriateness of the dominant political form in the region. Among other critical issues, the course will also look at the role of the early nationalist movement in shaping the modern state formation in the region. It will therefore consider the roles of individuals and early political organisations and movements. Emphasis will also be given to the role of elections, electoral press, political parties, and the bureaucracy in the formation of public policy. the course will end with a review of the approach.
to regionalism and foreign policy in the region.
The nature of the course will favour a multidisciplinary approach
drawing as necessary from politics and law, focusing specifically
on international political economy and international trade law.

GOVT 3025 – TRADE AND THE ENVIRONMENT
The course provides an understanding of the relationships
between international trade (with particular focus on the World
Trade Organization) and the protection of the environment. The
nature of the course will favour a multidisciplinary approach
drawing as necessary from politics and law, focusing specifically
on international political economy and international trade law.

The course aims to provide students with the tools to discern the
critical relationships between international trade and protection of
the environment. Given the complexity and the interrelationship
between human activity and the environment, there is a need
to understand areas of potential conflict between trade as the
political and economic activity of people and the physical
environment within which this occurs. Trade cannot occur
without the environment, and this makes it necessary to examine
this relationship. Overall the course represents an illustration of
the conflict of values and means of resolution, as between trade
and the environmental, within system of international trade and
international politics.

GOVT 3049 – CARIBBEAN INTERNATIONAL POLITICS
1. International theories and weak states
2. Caribbean foreign policy relations
3. The administration of Caribbean foreign policy
4. Caribbean crisis and disputes
5. The Caribbean in international organizations
6. The Caribbean in the Global Political Economy

GOVT 2057 AND 3058 EGOVERNANCE FOR SMALL
ISLAND DEVELOPING STATES. I & II.

Pre-requisites
To take egovernance II, students would need egovernance I.

However students may wish to take egovernance I only.

Information and communication technologies are changing
the economy, society and culture in increasingly pervasive
and complex ways. Developing efficient, reflective, sustainable
governance mechanisms and corresponding tools to master and
steer their underlying dynamics in both the public and private
organisations has become a necessity.

This course aims to (i) enable participants to gain an understanding
of the concept of e-government and its role in service delivery
and civic engagement; (ii) offer an interdisciplinary perspective,
allowing students to understand the organisational and policy
challenges of eGovernment by drawing on the application of key
conceptual frameworks from politics and sociology (for example
key issues and emerging topics, including the broader socio-
economic environment); management and public policy (for
example the application of knowledge at both an organisational
(firm) and policy level); (iii) present and support arguments as
well as synthesise and critically analyse academic literature on
e-government management; (iv) analyse critically the strategies
and policies of organisations engaged in e-Government policy
and management; (v) apply a range of analytical techniques
for policy planning and evaluation; (vi) frame, design, execute
and write up a substantial piece or research grounded in social
science research methods as applied to e-Governance issues.
The two courses build students knowledge in the management
of public sector information technology.

INRL 1000 – INTRODUCTION TO INTERNATIONAL
RELATIONS

This course aims to provide students with an understanding of
the origins and progress of the International Relations (IR)
as a discipline and to introduce them to key issues and concepts
needed for studying international relations. Consequently, this
course will expose students to the differences between IR (the
discipline) and IR (the events/subjects under study). The course
will present 'mainstream' (Realist and Liberal) approaches to
understanding world politics, which originate predominately
from industrialized countries, whilst also introducing students
to developing country perspectives and concern.
PSYC 1004 – INTRODUCTION TO SOCIAL PSYCHOLOGY

This course is designed to introduce students to the psychological discipline that uses scientific methods to understand and explain how the thoughts, feelings and behaviour of individuals are influenced by the actual, imagined presence of others. Students will gain general knowledge of this interesting and exciting profession. Major content areas include prejudice and discrimination, prosocial behaviour, aggression, interpersonal attraction and close relationships. Issues will be discussed within the Caribbean context.

PSYC 2001 – COUNSELLING I

Prerequisites:
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

This course provides a broad introductory overview of the counselling process with emphasis on both the theoretical foundation and the demonstration and practice of basis communication, counselling and problem-solving skills in the counseling relationship. This course is recommended for those students planning on entering the social science fields where interpersonal contact with people necessitates dealing with personal, social, vocational, empowerment, and educational concerns. Through the use of lecture, discussion, experiential exercises, group work, practice experiences and coursework, students will participate in their own development in the counselling process.

PSYC 2002 – ABNORMAL PSYCHOLOGY

Prerequisites:
PSYC 1003 Introduction to Psychology or
PSYC1 004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

The student should have gained a basic understanding of the general principles of psychology and an appreciation of the variations of the different schools of psychology in the introductory courses and PSYC2012 Developmental Psychology. In addition, from PSYC2012 Developmental Psychology, the student should understand the physical, social and psychological development of an individual from birth to death. With an appreciation of the limits of normal behaviour, the student is prepared for a course in psychology.

PSYC 2012 – DEVELOPMENTAL PSYCHOLOGY

Prerequisites:
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

The student should have completed the General Principles of Psychology in an introductory course and have an appreciation of the different Schools of Psychology

This course is concerned with human development and factors that shape behaviour from birth to old age. Emphasis is placed on the similarities and differences between male and female and the part that society plays in shaping behaviour.

At the end of this course the student should understand the physical, physiological, social and psychological development of an individual from birth onwards.

PSYC 2015 – CULTURE AND PSYCHOLOGY

Situating the study of human behaviour in the context of culture has gained tremendous momentum in the past several decades. This course is designed to explore this movement historically and conceptually. The course will cover cross-cultural research however the focus is not on cross-cultural appreciation nor on the development of a taxonomy of cultural differences. Methodological issues as they pertain to the conduct of research across cultures, will be emphasized as will emergent theories important to the study of culture and psychology. The course will include an exploration of how recent advances in understanding the relationship between sociocultural contexts and human behaviour have offered new insights into long held views of human functioning. The course will also examine how ignoring and misunderstanding the role of culture in human behaviour has lead psychology to participate in the perpetuation
of racist ideologies in western societies. In this way the course is intended to help psychology students become critical consumers and producers of psychological research. This course will address culture from a developmental and social psychological perspective, with emphasis on the study of culture in the Caribbean context. The class is highly interactive by design and relies on discussion to facilitate critical thinking about the issues under consideration. Meetings will be divided between lectures, guided discussions and activities.

**PSYC 2016 – COMMUNICATION PSYCHOLOGY**

**Prerequisites:**
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

This course is designed to introduce students to the various types of communication so that they are enabled to critically assess the ability of the various types of communication to influence human behaviour, attitudes and thoughts.

**PSYC 2017 – GENDER AND PSYCHOLOGY**

**Prerequisites:**
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

This course examines how biological and cultural factors influence the development of gender identities and gender roles and the concepts of masculinity and femininity. It explores how these gender identities and roles affect our personal, social and professional lives. It will enable students to understand some of the major conceptual and theoretical approaches to the study of the psychology of gender and the influence of gender on people's thoughts and behaviours.

**PSYC 3003 – COMMUNITY AND ENVIRONMENTAL PSYCHOLOGY**

**Prerequisite:**
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

In this course, theories developed in a variety of areas – social psychology, sociology, ethology, political science, architecture and anthropology are synthesized to enable students to understand and assess the interaction between the individual and his environment.

This course aims to:
- Provide an overview of the theories, principles and methods of the community psychology
- Examine the relationship between individuals and the social system
- Explore the application of the theories, principles and methods of the community psychology to community issues and settings
- Explore the incidence and prevalence of psychological problems within the community
- Examine the relationship between the physical environment and human behaviour and experience
- Consider the role of research in community/environmental psychology
- Develop an awareness of the contemporary community needs and how both qualitative and quantitative techniques can be employed to address complex social problems.

**PSYC 3008 – ELEMENTS OF COUNSELLING AND PSYCHOTHERAPY**

**Prerequisite:**
PSYC 1003 Introduction to Psychology or
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology

This course provides students with an introduction to the fields of counselling and psychotherapy in a complex, multicultural society, and highlights the differences and similarities between
the two disciplines. It will cover professional foundations of counselling including ethics, provide an overview of the counselling process, outline key psychological theories and techniques as they are practiced in a variety of situations, describe the theoretical foundation of the professions, provide a basic overview of the practice of basic communication, interviewing, therapeutic and problem solving skills. The course is recommended for those students planning on entering social science fields where interacting with and helping others in a therapeutic context is required.

**PSYC 3013 – CONTEMPORARY ISSUES IN SOCIAL PSYCHOLOGY**

**Prerequisites:**
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology or
PSYC 1003 Introduction to Psychology

This course builds upon the foundation laid by the introductory social psychology course and focuses on how Social Psychologists address contemporary social issues. Drawing on contemporary theory, and pure and applied research, students will engage in a critical analysis of the crucial person and environment variables that influence behaviour in our Caribbean society. Topics for discussion will include prejudice and discrimination, interpersonal attraction, close relationships, social influence, prosocial behaviour, aggression, and social psychology applied to health.

**PSYC 3014 – INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY**

This course explores the applications of psychological theories and concepts to problems encountered in work environments with special reference to the Caribbean. It will address the research methods and consulting techniques used to study and modify behaviour in organizations. Topics for discussion will include research methods in Industrial and Organisational Psychology, employee recruitment and selection, evaluating employee performance, employee training and development, motivation, job satisfaction, communication, organizational culture and human factors.

**PSYC 3021- RESEARCH THESIS IN APPLIED PSYCHOLOGY (MAJORS)**

**Prerequisites:** For Psychology Majors only

This course is designed to develop an understanding, instill an appreciation, and provide hands on experience in designing and conducting an original piece of research in psychology. Students will gain experience in applying theories and skills attained throughout their undergraduate programme to conduct research. This two-semester research thesis will involve empirical and/or theoretical work using scientific methodology to address problems that emerge out of the condition of the Caribbean experience.

**PSYC 3022 – RESEARCH PROJECT IN APPLIED PSYCHOLOGY (MINORS)**

**Prerequisites:** For Psychology Minors only

This course is designed to develop an understanding, instill an appreciation, and provide hands on experience in designing and conducting an original piece of research in psychology. Students will gain experience in applying theories and skills attained throughout their undergraduate programme to conduct research. This one-semester research project will involve empirical and/or theoretical work using scientific methodology to address problems that emerge out of the Caribbean experience.

**PSYC 3024 – APPLIED PSYCHOLOGY RESEARCH METHODS**

**Prerequisites:**
PSYC 1004 Introduction to Social Psychology or
PSYC 1007 Fundamentals of Psychology or
PSYC 1003 Introduction to Psychology

This course is designed to provide psychology students with the knowledge, skills and abilities necessary to conduct successful research studies and to improve the research skills of third year psychology students in the following courses:
(PSYC3011 Research Project in Psychology (2 semesters) and PSYC 3016 Research Project in Psychology (for Minors)
(1 Semester). The emphasis will be on imparting both conceptual understanding and skills students can apply when designing their third year research studies: developing their research proposals, collecting research data, analysing research data and presenting research findings. This course will consist of lectures, tutorials and computer laboratory sessions, with each aspect geared at specific skill development.

**SOCI 1000 – INTRODUCTION TO SOCIOLOGY II**

The main objective of this course is to introduce students to the basic concepts, theories and methods of Sociology. It seeks to provide basic knowledge of the sociological approach to the study of social and economic problems and development, while ensuring that students have a clear understanding of the forms of explanation and methodological procedures used in Sociology for practical "scientific" analysis. It lays the foundation for more advanced sociology courses.

Topics for discussion include: development of sociology, introductory classical and modern theoretical perspectives, research methods in sociology, groups and social interaction, deviance, social inequality, social institutions, development of sociology in the Caribbean, social change and social development.

**SOCI 1002 – INTRODUCTION TO SOCIOLOGY I**

2. The interplay of theory and method
3. Documentary analysis - historical and case study material
4. Unobstrusive measures - erosion and accretion analysis
5. Participant and non-participant observation

SOCI 2007 – SURVEY DESIGN AND ANALYSIS

Prerequisite:
SOCI 2006  Qualitative Research Methods; AND

This course introduces students to survey research methodology. It will also expose students to the concepts of problem formation, sampling, instrumentation, ethics, and modes of data collection, processing and analysis.

The course will enable students to gain practical experience in the following areas: Conceptualisation & Operationalisation; Questionnaire Design; Survey Data Collection; The use of SPSS to enter and analyse data; and presenting findings in the context of social research.

SOCI 2013 – CARIBBEAN SOCIAL DEVELOPMENT

Prerequisites:
SOCI 1000 Introduction to Sociology II, or
SOCI 1002 Introduction to Sociology I,

This course builds on the content of the prerequisites and introduces the student to the practical world of Caribbean social development. The course provides a critical overview of the perspectives, definitions and indicators of social development as they have evolved from colonialism through the post-colonial Caribbean. The course will expose students to the basic techniques of project identification, design, monitoring and evaluation in the areas of social analysis and environmental impact studies. Actual projects in the wider Caribbean will be utilised. Students will also be exposed to the realities of poverty and development in the Caribbean and become familiar with the various social indicators measuring various aspects of poverty reduction and social development. Examination of community participation, the role of NGO’s and questions of empowerment in social development programmes and projects will also be explored.

SOCI 2014 – CARIBBEAN KINSHIP

This course critically examines concepts and theoretical perspectives and biases in Caribbean Kinship studies. It examines variations in Caribbean Kinship ideologies and practices from the historical and contemporary perspectives and analyses, a range of kinship issues, problems and policies.
SOCI 3000 – SUPERVISED RESEARCH

GENERAL

1. The Supervised Research Project is equivalent to a Faculty course and must therefore reach that standard in terms of content and research effort. It is a one-year six (6) credit course.

2. It is restricted to those majoring in Sociology and who have attained a B+ grade and over in SOCI 2006 Qualitative Research methods and SOCI 2007 Survey and Design Analysis.

PROCEDURE

3. Students must choose a topic for study which is primarily sociological in focus and which should broadly fall within a sphere of research specialisation of one of the Sociology lectures. They must then seek the advice and approval of the lecturer who is willing to act as supervisor for each study. On occasions when the chosen topic spans more than one subject area or discipline, joint supervision with another university lecturer may be recommended.

4. Students should submit a proposal to and consult regularly with their supervisors. It is students’ responsibility to inform his/her supervisor of progress and general difficulties faced, and to seek specific advice on bibliographical material and research methods (preparation of questionnaires, etc.).

PRESENTATION

The study should normally be between 5,000 and 8,000 words in length, excluding bibliography.

5. It should contain some originality in material, argument and conclusion and evidence of extensive reading and comprehension of the subject area. The research should also be explanatory rather than descriptive in nature.

6. Each study must have a title page, with the student’s

7. Studies should be typed (12 pitch font).

8. Bibliographies must be included.

9. Footnotes to elaborate briefly on points should be kept to a minimum.

10. Citations and References should follow Departmental Guidelines available from the Department Office.

DEADLINES

11. Submission of Proposal: 5th Monday of Semester I

12. Submission of final project: 1st Monday in April, of the year

SOCI 3004 – SOCIOLOGY OF TOURISM

This course aims to provide students with a broad sweep of some of the major theoretical and practical dimensions of the world’s largest industry, particularly in the pan-Caribbean context, but examples globally will also be analysed. The course will look at the history of the emergence of the leisure industry and modern tourism in the world and in the Caribbean. Examination of the Sociology of Tourism and its theoretical and methodological underpinnings will be explored. The social, economic and cultural impacts of tourism will be stressed utilising the comparative perspective. Transactional analysis and examination of both tourists and locals will be analysed. Given the critical link between tourism and the environment various issues will be researched and the roles of community tourism, eco- tourism and the necessity of developing sustainable tourism will be a critical focus of the course.

SOCI 3007 – RURAL DEVELOPMENT

Prerequisites:

SOCI 1002 Introduction to Sociology I

This course is designed to introduce students to the field of Rural Development and its essential role and the various issues which are critical to the survival of millions of people globally and in the Caribbean. The course will explore the key issues and challenges facing rural populations, governments, practitioners and other stakeholders. The course will examine problems at both the micro and global level, particularly with respect to commodity production, international organisations such as the
WTO, globalisation, as well as the critical link between agrarian reform and the environment. The course will examine the field from both an historical and comparative perspective exposing students to not only the history and problems of agrarian reform in the Caribbean but in other parts of the world. The linkages between agrarian reform, rebellion and revolution will be examined.

**SOCI 3009 – INDUSTRIAL SOCIOLOGY I**

**Prerequisites:**
SOCI 1000 Introduction to Sociology II, or
SOCI 1002 Introduction to Sociology I

This course on Industrial Sociology focuses primarily on the broad societal context within which the firm operates as countries of the Caribbean seek to adopt and establish industrial processes and practices in their productive activities especially in this era of revolutionary developments in information and telecommunications technology. It will seek to provide students with a clear understanding of the nature of work in the industrial setting and some understanding of the sociological principles that govern industrial society and the industrial workplace. It will therefore focus on the interrelationship of society and industry.

**SOCI 3009 – CARIBBEAN SOCIAL POLICY**

**Prerequisites:**
SOCI 1000 Introduction to Sociology II, or
SOCI 1002 Introduction to Sociology I

This course will introduce students to the basic concepts and approaches to social policy. It provides students with a historical and theoretical overview of the development of Caribbean social policies, and engages them in their assessment of laws relating to the operation of human services, the implementation of international and national social policy documents; and the modes of advocacy relating to social policy formation.

The topics for discussion include: concepts and theoretical perspectives in social policy; gender policy; education and children's services policy; mental health services; services for the unemployed; juvenile justice.

**SOCI 3012 – SOCIAL PLANNING**

**Prerequisites:**
SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

This course is intended to introduce students to the essential elements of Social Planning, its theory, its methods, design, implementation and evaluation.

Topics for discussion will include: Theoretical Issues in Social Planning; Techniques and Methods in Social Planning; Problem Analysis; Building Support; Program Design/Development; Program Implementation; Social Program Evaluation; Goals and Objectives in Social Program Evaluation; Measuring the Implementation of Social Programs; Measuring the Impact/Effectiveness of Social Programs; Social Impact Assessment and the Evaluation Report.

In addressing the above issues, special focus will be placed on the relationship between mainstream criminology perspectives and the empirical realities of crime in the Caribbean.
SOCI 3016 – SOCIAL GERONTOLOGY

Prerequisites:
SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

This course is intended to expose students to major perspectives in Social Gerontology, and to explore how, and in what ways these may be applied to problems and policies of ageing in the Caribbean.

Topics for discussion will include: Demographic Trends in the Elderly Population; Social Theories of Ageing; Physiological Aspects of Ageing, Psychological aspects of Ageing; Economic Status of the Elderly: Income, Levels of Housing, Work Retirement; Social Relations: Family, Friends, Neighbours; Changing Roles: Community, Organizational, Political; Death, Dying Bereavement; Attitudes Towards the Elderly; Social Security Policy for the Elderly; Housing Policy for the Elderly; Health Care for the Elderly; Personal Social Service for the Elderly; Care of the Elderly.

SOCI 3017 – CRIMINAL JUSTICE

Prerequisites:
SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

The course will offer a critical examination and assessment of some aspects of crime control in the Criminal Justice System. From a distinctly sociological perspective, the course will focus substantively and critically on Criminal Justice agencies and activities as the police and law enforcement, correctional agencies and the courts and activities such as the adjudication of justice and the punishment and treatment of offenders.

SOCI 3026 – SOCIOLOGY OF DEVELOPMENT

Prerequisites:
SOCI 1000 Introduction to Sociology II, or
SOCI 1002 Introduction to Sociology I

This course is designed to introduce students to the theories, models, policies and ideological underpinnings of economic and social development in the post-colonial world. It will examine the concept of “development and underdevelopment” and its implications for the post-colonial world. Although the course will focus principally on development policies, programmes and issues in the Caribbean, it is also intended to give the student a wider perspective in terms of comparative responses to the various challenges facing post-colonial countries in an increasingly globalised world. Therefore, specific topics which have and are facing Caribbean and other countries including debt, structural adjustment, trans-national corporations, and environmental issues will be explored.

SOCI 3027 – GENDER AND DEVELOPMENT

Prerequisites:
SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

This course will introduce students to gender perspectives in development theory, and the application of gender perspectives to the analysis of Caribbean Development. The main gender issues in contemporary Caribbean development will be explored with special emphasis on the gender dimensions of economic, human and social development in the Caribbean and globally.

Topics for discussion will include: differentiating between sex and gender; differentiating between equity and equality; feminist concepts and theories; development concepts and theories; women in development; gender and development; gendered ideologies in education, work and family; gender policy & gender mainstreaming.

SOCI 3033 – DRUGS AND SOCIETY

Prerequisites:
SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

This course explores drugs as a social problem from a systems perspective, examining how drug abuse permeates every segment of society including the individual, family, community, national, and international levels. Current theories and research
relating to drug use will be reviewed and the prevention, intervention and treatment of drug abuse will be explored. The pharmacology or the effects of commonly used drugs on the body and brain will be examined.

The course will also study how drugs present the single most critical challenge to personal and regional security within the Caribbean. Therefore, the relationship between drug abuse and crime will be examined. Social-cultural factors contributing to the use and the abuse of drugs in the Caribbean region will emphasized. There will be discussion of the development and administration of regional and international social policies concerning drug related issues. Agencies and institutions that administer drug policy will be identified. Political, legal, economic, psychological, biological, behavioral and spiritual aspects will be studied, in addition to the main focus of the course, which is the sociological context of drug use. This multi-disciplinary approach will give the student an understanding of the complexity of drug use and abuse in society.

**SOCI 3035 – CARIBBEAN SOCIAL PROBLEMS**

**Prerequisites:**

SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

This course will expose students to a sociological analysis of several issues in Caribbean society. In addition to conceptual issues and definitions meaning, and measurement in each area, the course will be concerned with an examination of the extent, nature, causes and consequences of each topic covered.

Topics to be covered include: The study of Social Problems; Consensus Theory; Conflict Theory and Action Theory, Underdevelopment: Conceptual Issues; Under-development in the Caribbean; Development Strategies; Social Inequality: Income Distribution Poverty; The Distribution of Land and Wealth; Housing Conditions; Health Nutrition; Race Racism; Sex Sexism; Population Growth Size; Social Problems of Age Aging; Selected Population Problems; Labour Market Problems; Unemployment Underemployment; Access Welfare in Education; Gangs Social Formations; Family Function; Family Conflict: Divorce, Separation; The Status Condition of Children; Crime Delinquency; Drug Abuse; Mental Health; Politics; Media.

**SOCI 3037 – SOCIAL DIMENSIONS OF INEQUALITY AND MARGINALISATION.**

**Prerequisites:**

SOCI 1000 Introduction to Sociology II or
SOCI 1002 Introduction to Sociology I

Social inequality is a complex and multidimensional problem as is evident in both classical and contemporary theories of social stratification. The aim of the course is to explore the primary causes, forms and consequences of social inequality and marginalisation in the Caribbean. The course will allow for the application of stratification theories to past and emerging contentious social issues like male marginalisation, female vulnerability, poverty, crime, human rights, homosexuality and discrimination, ethnic bias, HIV/AIDS, etc. The use of qualitative and quantitative data in examining inequalities and marginalisation will be done with a view to enhancing research skills.

Topics for discussion include: systems of stratification - open vs closed systems of stratification (caste, estate & class systems), classical & modern explanations of social inequality, sex, gender & sexual inequality, religious, racial & ethnic inequalities, social mobility & human rights, unequal treatment of marginalised & vulnerable sub-populations, policy implications of inequality, methods used to reduce inequality.

**SOWK 1000 – HUMAN BEHAVIOR**

This course seeks to build a knowledge base about human behavior and growth which is necessary for Social Work practice. An ecological and systems framework (Systems Impact Model), together with a developmental approach to the major sociological and psychological theories, are used to provide an understanding of the interaction between a person and the social systems in which individuals live (families, groups, organizations, institutions and communities).

The course addresses the interrelatedness of biological, social cultural, environmental, and psychological factors in human behavior. Inequality, discrimination, and differential access to opportunities experienced by vulnerable groups, such as the elderly, the disabled, gays and lesbians are also examined.
The content on race, gender, age, class, and sexual orientation addresses the impact which these conditions have on individual functioning at each developmental stage of the lifespan. Issues will be discussed within the Caribbean context.

Human Behaviour will also be scrutinized from a participation and integration perspective.

**SOWK 1001 – INTRODUCTION TO SOCIAL WORK**

This course will provide an introduction to the history, mission, and philosophy of social work and its development as a profession in the Caribbean. It will introduce the student to social work values, ethics, theories, knowledge base functions and skills, and examine the relevance of social work to the social, economic, and political changes in a society. In addition, the contribution of social work in meeting needs of individuals, groups, and communities through delivery of social programs will be explored.

The student will be introduced to the history and current patterns of social welfare program development, and the range of services that comprise social work and social welfare service delivery in Barbados and the Region. Students will be able to observe the operations of various social service agencies through organised field visits.

The course will also be valuable for any student who wishes to gain knowledge about the purpose of social work and its development as a profession in the Caribbean.

**SOWK 1002 – INDIVIDUALS AND FAMILIES**

**Prerequisites:**
SOWK 1000 – Human Behaviour and
SOWK 1001 – Introduction to Social Work

The course introduces social work students to direct practice with individuals and families as client systems. It is particularly concerned with extending the student’s understanding of the social work process as well as ability to make a complete psychosocial assessment upon which a feasible plan of intervention can be based and by which the outcome of case intervention can be evaluated. The focus will be on understanding the individual within the context of the family, societal alliances, and the broader societal setting. The West Indian family as a societal system will be discussed.

Course content will include methods of intervention that can be used to enable individuals to develop and function effectively in the family and society. Issues relating to the worker-client relationship and to values and ethical questions affecting interpersonal relationships will be examined. Students will also be introduced to the major theoretical frameworks relevant to casework intervention with individuals and families. The organizational context and the social service network within which social casework is practiced in Barbados and the Region will be discussed.

**SOWK 2000 – SOCIAL WORK THEORY AND PRACTICE WITH GROUPS**

**Prerequisites:**
SOWK 1002 – Individuals and Families

The purpose of this course is to provide Social Work students with the theory and practice of social group work. The course will address the initiation, facilitation and leadership of both task groups (social, recreation, education, skill, problem-solving and decision-making, self-help, socialization) and treatment groups from an ecosystems perspective. The focus of the course is to develop group leaders who understand group dynamics and effective leadership skills. The historical and theoretical foundations and the development of skills in group social work will be discussed and practiced. The course will emphasize issues that have application to a wide range of social work clients and situations in the Caribbean region.

**SOWK 2010 – INTERPERSONAL RELATIONS AND SKILLS LABORATORY**

This course addresses the knowledge, intra and outer-personal skills, attitudes, values and behaviours social work students need in order to establish effective relationships and interventions in their field practicum and in their professional careers. The course design is an interactive approach which encourages social work students' "use of self" in their practice with persons in multiple systems. Building the foundation of students' self-development
and self-reflective practice is a key component of the course.

Designed on a laboratory model, the course offers a supportive environment for identifying, developing and practising key social work values and skills, an approach recognised as effective in the preparation of students for placement in social work agencies. Learning objectives will be individualised for each student, based on their identified strengths and limitations and on core social work competencies and skills. Student collaboration and involvement in the planning of their professional skill development will be required in addition to meeting the course objectives. Direct observation by the lecturer as well as verbal and written feedback will be part of the student evaluation.

The rationale for the course is the need for high levels of self-awareness, empathy, tolerance, effective interpersonal communication, and ethical principles to deal with the increasingly complex and challenging professional and social environments. The course will attempt to more effectively prepare social work students by strengthening their academic and emotional attributes to face these challenges.

SOWK 3000 – SUPERVISED RESEARCH (Social Work)

GENERAL

(1) The Supervised Research Project is equivalent to a Faculty course and must therefore reach that standard in terms of content and research effort.

(2) It is restricted to those majoring in Social Work (SOWK 3000)

PROCEDURE

(3) Students must choose a topic for study which is primarily social work in focus and which should broadly fall within a sphere of research specialisation of one of the social work lectures. They must then seek the advice and approval of the lecturer who is willing to act as supervisor for the study. On occasions when the chosen topic spans more than one subject area or discipline, joint supervision with another university lecturer may be recommended.

4. Students should submit a proposal to and consult regularly with their supervisors. It is students’ responsibility to inform his/her supervisor of progress and general difficulties faced, and to seek specific advice on bibliographical material and research methods (preparation of questionnaires, etc.).

PRESENTATION

The study should normally be between 5,000 and 8,000 words in length, excluding bibliography.

5. It should contain some originality in material, argument and conclusion and evidence of extensive reading and comprehension of the subject area. The research should also be explanatory rather than descriptive in nature.

6. Each study must have a title page, with the student’s

7. Studies should be typed (12 pitch font).

8. Bibliographies must be included.

9. Footnotes to elaborate briefly on points should be kept to a minimum.

10. Citations and References should follow Departmental Guidelines available from the Department Office.

DEADLINES

11. Submission of Proposal: 5th Mondays, Semester I

12. Submission of final project: 1st Monday in April, of the year.

SOWK 3004 – FIELD INSTRUCTION 1

Prerequisite:
Must have completed Levels 1 and 2

Field Instruction I provides students with opportunities for development of social work practice through direct work in social service agencies. The central focus of this field practice is on the application of social work skills within micro and mezzo client systems. Field Instruction I is the educational component where
knowledge, values, and skills learned in the classroom are tested, reinforced and integrated in a disciplined manner. As students undertake learning tasks within the reality of agency life, a vital link is established whereby constructive use of theory, acquired through course work, can be applied. Values and attitudes are examined and skills are developed and refined.

Students are placed in social work and related agencies for eight (8) hours each day, four (4) days per week, for thirteen (13) weeks, totaling 416 hours. Field instructors/agency supervisors and students are guided in practice by the social work programme’s field instruction coordinator. The use of a field instruction manual assures standardisation, continuity, and accountability for learning tasks, and their completion and evaluation, within the first semester field experience. Field Instruction II is held concurrently with Field Instruction Integrative Seminar I: SW36B, a seminar designed to enhance and strengthen the field experience.

**SOWK 3006 – FIELD INSTRUCTION INTEGRATIVE SEMINAR I**

**Prerequisites – Completion of Level 1 and 2**

Field Work Seminar I is held concurrently with SOWK 3004 - Field Instruction I and is an adjunct to the field instruction experience. This three (3) credit hour seminar prepares students for work in a social service setting and provides opportunities for students to integrate social work knowledge and theory with practice experiences from community agencies. Students engage in active discussion of the application of theory and practice to professional values, standards, and ethics based on aspects of the field instruction experience with clients systems.

The focus of Seminar I is on building student competence and skills with client systems at the micro and macro levels. Further development and practice of interventions, skills and techniques are encouraged through individual and group participation in the classroom. The importance of professional “use of self” in understanding personal attitudes, biases and stereotypes will be emphasized, along with a strong professional work ethic.

**SOWK 3008 – FIELD INSTRUCTION INTEGRATIVE SEMINAR II**

**Prerequisite:**
SOWK 3006 Field Instruction Integrative Seminar I

Field Instruction Integrative Seminar II is held concurrently with SOWK 3005 - Field Instruction II and is an adjunct to the field instruction experience. This three (3) credit hour seminar prepares students for work in a social service setting and provides opportunities for students to integrate social work
knowledge and theory with practice experiences from community agencies. Students engage in active discussion of the application of theory and practice to professional values, standards, and ethics based on aspects of the field instruction experience with clients systems.

The focus of Seminar II is on building student competence and skills with client systems at the macro level. Further development and practice of interventions, skills and techniques are encouraged through individual and group participation in the classroom. The importance of professional “use of self” in understanding personal attitudes, biases and stereotypes will be emphasized, along with a strong professional work ethic.

**SOWK 3009 – COMMUNITY ORGANIZATIONS**

**Prerequisites:**
SOWK 2000 Social Work Theory and Practice with Groups

The course introduces students to evolving theoretical approaches in generalist social work practice with communities and organizations as macro systems. It provides an understanding of communities and organizations as clients, and the concept of planned change at the organizational and community levels. Emphasis will be placed on the processes in organizations, particularly formal/bureaucratic and social service organizations in Barbados and the Region; the management of organizational and community change; leadership; and; and the strategies, methods and tactics used in assessment, planning and intervention in macro practice. The importance of advocacy, lobbying, and the building of alliances, networks, and coalitions within local organizations and communities will also be discussed. Students will be involved in group projects in local communities as a way of integrating theory and practice.

**SOWK 3031 – BIO-PSYCHOSOCIAL CHALLENGES OF HIV/AIDS IN THE CARIBBEAN**

The aim of the course is to provide students with a knowledge base of the bio-psycho-social impact of HIV/AIDS on the individual and the inter-relatedness of these issues to the family, work environment and communities. Issues related to gender, human sexuality, behaviour change, ethical and legal considerations, the care and management of people living with HIV/AIDS and the delivery of services to this population will be examined. The impact of primary, secondary and tertiary prevention and intervention efforts to reduce the spread of the disease, and barriers limiting these interventions will also be explored.

**SOWK 3032 SUBSTANCE ABUSE MANAGEMENT IN CARIBBEAN SOCIETY**

**Prerequisites:**
SOWK 1002 - Individuals and Families Or
PSYC 2001 - Counselling I

This course provides a foundation for understanding substance abuse management and treatment in Barbados and the region. Students will examine the etiology of substance abuse, treatment approaches and policies and programmes pertaining to the prevention and treatment of substance abuse. This course is set in the context of the new workplace and is designed for business rather than law students. As such its points of reference are Industrial Relations, Human Resource Management and related disciplines. It is also set in a larger societal context. You will be encouraged to probe the political, social and economic context in which labour law is formed. The primary objective however, is to add a legal dimension to your understanding of work and workplace relationships.

GRADE POINT AVERAGE REGULATIONS
(Revised March 2006)

1. The Board for Undergraduate Studies, in the delegated exercise of Senate’s powers as the academic authority for the University under Statute 25, makes the following regulations to govern the Grade Point Average system in the University, effective 2003/2004 academic year for all candidates newly entering a programme. Persons who enter the system prior to 2003/2004 academic year to pursue first degrees will be considered under the GPA scheme effective 2006/2007. All students entering the Faculty of Law in the academic year 2005/2006 and the Faculty of Medical Sciences in the academic year 2006/2007 shall be governed by the GPA Regulations in the calculation of the award of their respective degrees. However, students entering the Faculty of Law prior to 2005/2006 and the Faculty of Medical Sciences prior to 2006/2007 will be treated under the old system of classification. A student who entered the University prior to 2003/2004 and changes his/her major subsequent to the introduction of GPA will be considered to be “newly entering a programme”

2. In accordance with Statute 47 and subject to these regulations all students shall normally spend a minimum of three academic years in the University of the West Indies before being eligible for the award of a First Degree.

3. (i) For purposes of these regulations, the following meanings shall apply, except where the context otherwise requires:

(a) Credit Hours Earned: “Credit hours earned” means the credits for each course that count toward the degree requirement and for which a passing grade is obtained.

(b) Quality Hours: “Quality hours” means the credits for each course that is included in the GPA calculation. Quality hours shall be assigned even when a grade of F is obtained in a course. Courses that are not used in the determination of the GPA shall be assigned zero quality hours.

(c) Quality Points: “Quality points” means the numerical value assigned to the relevant letter grade earned.

(ii) For the purposes of these Regulations:

(a) Level I, II and III Courses: Levels I, II and III courses are courses so designated by the Board for Undergraduate Studies.

(b) Grade Points: Grade points are determined by multiplying the quality hours by the quality points for a course.

(c) Grade Point Average (GPA): Grade Point Average is the average obtained by dividing the total grade points earned by the total quality hours for which the student has registered for any stated period of time, excluding courses taken on a pass/fail basis, audited courses, courses taken for preliminary credit and courses for which the designation I or IP is awarded under Regulation 6(iv).

(d) Weighted Grade Point Average: Weighted Grade Point Average is the average determined by applying appropriate weights for Levels I, II, and III courses to the grade points and the quality hours used in determining grade point average as set out at Regulation 3(ii)(c) above.

(e) Credit Hours: The credit values for courses, as well as for projects, laboratory sessions, foreign language classes or other contact hours, shall be determined by the respective Faculty Board and approved by the Board for Undergraduate Studies.

(iii) Pass/Fail Course Provision: Credit hours earned in courses taken on a Pass-Fail basis shall not be included in calculating grade point averages.

4. (i) The class of degree shall be awarded on the basis of the Weighted GPA as set out in these regulations.
(ii) In determining the Weighted GPA, the weights to be used for each Level I, II and III course shall be as prescribed in Faculty Regulations.

(iii) Except for the purpose of determining the class of degree the term GPA in these regulations shall mean the GPA as defined at Regulation 3(ii)(c) above.

5. (i) First Degrees awarded by the University, with the exception of the BSc (Engineering), The Bachelor of Science (Petroleum Geoscience), the Bachelor of Science (Surveying and Land Information), LLB, MBBS, DDS, and DVM, shall be classified as follows:

First Class Honours  
(Weighted GPA 3.60 and Above)

Upper Second Class Honours  
(Weighted GPA 3.00 – 3.59)

Lower Second Class Honours  
(Weighted GPA 2.00 – 2.99)

Pass (Weighted GPA 1.00 – 1.99)

(ii) **Award of Honours in GPA System:** Honours shall be awarded taking into account all Level II and Level III courses excluding the Foundation courses.

(ii) First Degrees awarded by the University for the Bachelor of Science (Engineering), the Bachelor of Science (Petroleum Geoscience) and the Bachelor of Science (Surveying and Land Information), LLB, MBBS, DDS, and DVM, shall be classified as follows:

First Class Honours  
(Weighted GPA 3.60 and Above)

Upper Second Class Honours  
(Weighted GPA 3.00 – 3.59)

Lower Second Class Honours  
(Weighted GPA 2.00 – 2.99)

Pass (Weighted GPA 1.00 – 1.99)

6. (i) The letter grades for completed courses used in the calculation of GPA shall be the following:

- A - four quality points
- B - three quality points
- C - two quality points
- D - one quality point
- F - no quality points

(ii) Plus and minus modifiers may be used with letter grades A through D.

(iii) In the determination of GPA, the defined grades with the corresponding quality points shall be:

(iv) The following designations may be assigned, but shall not be used in the calculation of Grade Point Average:
PC: Preliminary Credits - used for matriculation purposes or the satisfying of prerequisites only

EC: Exemption with credit

E: Exemption

EI: Examination Irregularity – Candidate disqualified from examination on account of breach of the Regulations

EQ: Examination Query

(v) The following designations may be assigned and shall count towards the GPA:

FA: When a student is absent from an examination without a valid reason

FC: Failed Coursework – indicates that a candidate has failed to satisfy the Examiner in the coursework component of the course

FE: Failed Examination – when a candidate has successfully completed the coursework requirement but has failed to satisfy the Examiners in the examination component of the course

AM: Absent Medical

IM: Incomplete Medical

V: Audited - when the course has been taken in accordance with Regulation 14

NV: When a student has been permitted to audit a course but has not done so satisfactorily

P: Pass - a pass obtained in a course taken on a Pass/Fail basis

NP: Not Passed - when a student has failed a course taken on a Pass/Fail basis

AB: Absent - when a student is absent from an examination for acceptable reasons other than medical reasons

I: Incomplete - indicated that the student has made progress in a course but at the end of the semester has not finished the work required to receive a letter grade. An I designation is not counted in credit hours earned, or quality hours until a letter grade is reported. If neither a letter grade nor notification of an extension of time is received by the Registry from the Office of Dean, the I designation is replaced by an F letter grade at the end of the first six weeks into the next semester. An extension of time may be granted but shall not normally extend beyond the end of the semester in which the extension is granted. Any remaining I symbol at the end of the period of extension will be deemed an F.

NR: Not Reported - Grade not yet available.

IP: In Progress - when a dissertation, thesis, project, student teaching, practicum, internship, proficiency requirement, or other course intended to last more than one semester is not completed during the semester in which the student is registered. The IP designation must be replaced with an appropriate grade on completion of the course.
7. The scheme to be used for conversion of numerical marks to letter grades shall be as prescribed in Faculty regulations as follows:

8. The courses to be used for the purpose of determining the Weighted GPA for the class of degree to be awarded shall be as prescribed in Faculty Regulations.

9. Where a course has been repeated, the penalty to be applied for failure and the grade to be used in the computation of the student's GPA if the course is subsequently passed, shall be as prescribed in Faculty Regulations.

10. For the purpose of determining the Weighted GPA, failed courses shall be treated as prescribed in Faculty Regulations.

11. (i) Where credit for a course taken at another institution is requested, it is the student's responsibility to provide all the information needed by the University to enable it to assess the course.

   (ii) Credit hours earned from another institution at the time of admission to the University of the West Indies will not be used in the computation of a grade point average.

12. The following shall apply to credits earned by a UWI undergraduate from another approved institution:

   (i) A UWI student who wishes to take academic courses elsewhere and apply those credits toward the UWI degree must obtain approval in advance from the relevant Academic Board on the recommendation of the Board of the Faculty in which he/she is registered.

   (ii) A student must have obtained a minimum UWI GPA of 3.00 to be approved to take courses as an exchange/transfer student.

   (iii) Only the grade equivalent as determined by the Board for Undergraduate Studies of the results achieved and not the marks or grades so earned at another institution shall be used in the computation of the student's GPA.

13. (i) Except where otherwise prescribed in Faculty Regulations, a student whose GPA for a given semester is less than or equal to 0.75 shall be deemed to be performing unsatisfactorily, and shall be placed on warning. A student on warning whose GPA for the succeeding semester is less than 0.75, will be required to withdraw. However, a student may be reinstated if his/her GPA improves beyond 0.75 by credits obtained in Summer School. Then the credits would be rolled in to the GPA of the preceding Semester of the academic year.

   (ii) A student on warning shall be counselled by the Dean or a designated faculty advisor. Such a student may, except where otherwise prescribed in Faculty Regulations, be permitted by the Academic Board on the recommendation of Faculty Board to carry a reduced course load.

14. (i) A registered student may be permitted to audit a course on the approval of the Dean and the Head of Department.

   (ii) Auditing means recorded attendance at the lectures, tutorials and laboratory sessions for a given course without the requirement of sitting the final exam.

   (iii) Satisfactory attendance certified by the Head of Department shall be awarded the designation V. In absence of such certification, the designation NV shall be recorded.
(iv) No academic credit may be granted for auditing a course.

15. (i) A student who voluntarily withdraws from the University and who applies for re-admission within five (5) years shall be granted exemption and credit for courses previously passed, subject to the time limit for the maintenance of credits stipulated in the relevant Faculty Regulations and subject to the stipulation that the courses previously passed are not determined by the Board of the relevant Faculty to be obsolete.

(ii) Where exemption and credit are granted in accordance with (i), the grades obtained at previous attempts at such courses shall be used in the determination of the student’s GPA.

16. A student who was required to withdraw for reasons of failure to progress as prescribed in Faculty Regulations may be readmitted on the following conditions:

(i) A minimum of one (1) year must have passed since the date of withdrawal;

(ii) All grades previously obtained shall continue to apply for the purpose of determining the student’s GPA;

(iii) Work done during the period between the student being required to withdraw and being granted readmission may be eligible for credit under Regulation 11.

17. Where there is a conflict between Faculty Regulations and these regulations, these Regulations shall apply.

HOW TO CALCULATE YOUR WEIGHTED GPA

STEP ONE: A ‘grade point’ is assigned for every course in which you receive a final grade. For example, if you receive an A as a final grade, you will be assigned a grade point of 4.0.

STEP TWO: The grade point assigned for each course completed is multiplied by the ‘credit hours’ of the course to determine your ‘quality points’. For example, if you receive a grade point of 3.7 [equivalent of letter grade A-] for a 3-credit course the quality points would be calculated as follows: 3.7 X 3 = 11.1 quality points.

STEP THREE: Your ‘Weighted GPA’ is the average obtained by dividing the total quality points earned in your programme to date by the total credit hours taken, excluding courses taken on a pass/fail basis, audited courses, courses taken for preliminary credit, incomplete courses and any other courses which do not count towards the class of degree according to Faculty regulations.

For example: 54 quality points earned divided by 15 credit hours [equivalent to 5 3-credit courses] = a Weighted GPA of 3.6.
